Given the timing of each academic cohort, the data required to calculate graduation rates may not be available. For example, the graduation rate for the 2022-23 and 2023-24 academic cohorts are not yet available as insufficient time has passed since the cohort start dates. Values where students from the cohort listed have yet to graduate from the cohort year listed are coded as "IP".

FT = Full-time
 IP = In Process: Students from the cohort listed have yet to graduate from the cohort year listed.
 Programs are only required to provide data on the past 9 years/cohort or since the program was initially accredited, whichever is shorter.

[1] Graduation Rate is the program's Advertised Length of Completion which is how long the program is designed to complete as written.
 [2] Job Placement Rate is the percentage of graduates from the cohort year that are employed utilizing skills learned in the COAMFTE accredited program.
 [3] Licensure rate is the percentage of graduates from the cohort year that have achieved ANY level of MFT licensure. For Master's programs only, COAMFTE has established a benchmark of 70% licensure rate for each cohort.
